

Concrete Hopper

Concrete Hoppers - This particular attachment is a self-dumping hopper which automatically activates to unload as bumper release touches the side of a dumpster. As soon as dumping is completed, the hopper goes back to a locked and upright position. This piece of equipment is likewise presented along with a cable that enables operation from the seat of the lift truck to be able to have the alternative of manually unloading the hopper. There is a locking chain provided in order to lock the hopper to the tine truck. This particular product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish in order to maintain durability.
